To: All OPS Parents

Subject: Omaha Public Schools Human Growth and Development Curriculum

Good afternoon OPS Parents:

As many of you are aware, OPS began implementing new Human Growth and Development (HGD) curriculum this fall. This is the first full adoption of updated HGD content standards, materials, textbooks and resources since the course was implemented in 1986.

There have been several community groups disseminating information regarding what is and what is not in the curriculum. We want to make sure that all OPS parents have accurate information. Therefore, we have included several documents with information regarding what is being taught in the OPS Human Growth and Development curriculum.

We have included the following documents for your review:

- OPS Human Growth and Development Fact Sheet
- Parent Human Growth and Development Frequently Asked Questions
- Side-by-side comparison of language being used by outside organizations and accurate OPS curriculum information.

Additional information can also be found on the [OPS website](#).

We appreciate your help and support with this matter. If you have any questions, please don't hesitate to contact the Curriculum and Instruction Support Department at (531) 299-0243.

Sincerely,

Dr. ReNae Kehrberg, Assistant Superintendent Curriculum and Instruction Support
Omaha Public Schools
