Thank you for your subscription to Health World’s eLearning programs. As part of your school’s access, you may wish to use the program specific links as parent resources before the classes are presented at your school. These resources are left to the school’s discretion and use.

The links below take you to password protected pages on the Health World website for parents to preview the video components of each program.

*We recommend sending only the specific link* to parents, for the program their son or daughter will be participating in at school. If you have any questions, please do not hesitate to contact our office.

*Please note the passwords are case sensitive.*
