Horses in the Barn

Materials:
• 2 Players
• Game board
• Dice
• 10 Red Counters
• 10 Yellow Counters
• Blocks or other objects

Directions:
Players roll the dice and build the number they rolled with blocks or other objects. Then they compare the amount they rolled. The player with the greatest number puts their counter in the barn and the other player puts their counter in the field. When the counters have all been used, the player with the most in the barn is the winner.
Variations

**Level 1**: each player rolls 1 die then builds the number with blocks to compare

**Level 2**: each player rolls 2 dice and adds them together by building the number with blocks to compare

**Level 3**: each player rolls 2 dice and uses the numbers to make the greatest 2 digit number and builds the number with blocks to compare

**Level 4**: each player rolls to make 2, 2-digit numbers and builds the numbers with blocks to add together and compare
